

WHAT IS A MAN BUT AN ANIMAL'S END

What is a man but an animal's
What is a man but the end
What is a man but an animal's end
What is a man but the end

What is a man but an animal's
What is a man but the end
What is a man but an animal's end
What is a man but the end
What is man but an animal's end
What is a band but an animal's end
What is a man but an animal's evolution
What is a man but an animal's end
Biomechanical savages hence
What is a man but an animal's evolution
Bring on the apocalypse
If everything is meaningless
The universe is indifferent to man

The naught behind the curtain bates
That certain death's a certain fate
Baser instincts navigate a man
An appetite that naught can sate
With bloated gut and crippled gait
He wears his cradle to his grave
Amen

Homunculus (2018)

Bring on the apocalypse
If everything is meaningless
