

JESUS

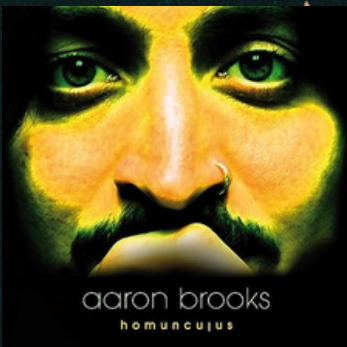

Jesus, do not conceal us
Will you reveal us to ourselves
Jesus, keeper of secrets
Why won't you teach us
How to be more free

Jesus, king of the meek and
Leprous people
King of yourself
Leave this
What here that sleeps in
Abysmal deepness
It's just as well

Jesus, can you lead us
Far from temptation
Far from damnation
Jesus, can you relieve us
These hesitations, These resignations

Satan, how do you move me
Can you see through me
Can you improve me
Satan, why did you choose me
Your way is soothing
Your way is free

Jesus, why did you leave us
Where were you then, where are you now
Satan, Your lips have kissed me
Will you assist me
Back down to hell
